

## Pupil Area View

You will be able to access home learning, discussions and more via the School Spider pupil area. Here's some basic information to help you along with your child.

### Accessing Homework and Discussions

The pupil login details should have been provided to you. To login go to the school's website and click pupil or student login.

Click the image to change the child avatar

The screenshot shows the pupil area dashboard for Sarah O'Leary. At the top, there are four tabs: Dashboard, Homework, Blogs, and Scrapbooks. The main content area includes a welcome message, a profile picture, and a 'Report something to a teacher' button. On the right, there are four blue buttons: 'Blogging leaderboard', 'Most popular blogs', 'Posts you're tagged in', and 'Your Homework scores'. Below this is the 'HOMEWORK AREA' for Year 4: 2019 - 2020, with a 'View all Homework' button. Three homework items are listed: 'Art and design - Hello' (Due: 16th Mar 2020), 'Maths - Maths Worksheet' (Due: 16th Mar 2020), and 'Geography - Holidays' (Due: 13th Sep 2019). Each item has a 'View' button.

You can click into the relevant tabs at the top. Any new Homework or Discussions will appear on the dashboard.

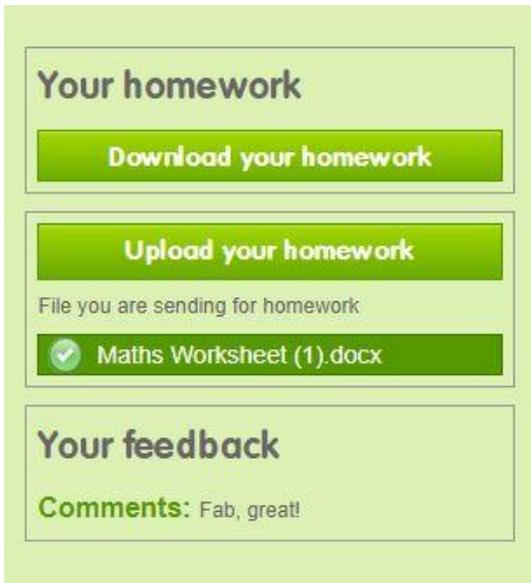

### Downloading Homework and Responding

Once you have clicked into a homework or discussion, children can respond to their whole class and teacher in the comments feed. Reply to the feed or to other children's comments.

On homework items, they can download worksheets and upload them back to the teacher with the options on the right.

Personal feedback from the teacher will also be shown here. No other pupils can see this feedback.

You can only upload one file at a time. If you need to upload more, you need to upload a zipped folder of documents.

The screenshot shows two sections. The 'Your homework' section has a green button labeled 'Download your homework' and another green button labeled 'Upload your homework'. Below the upload button, it says 'File you are sending for homework' and shows a green checkmark next to 'Maths Worksheet (1).docx'. The 'Your feedback' section shows a green button labeled 'Comments: Fab, great!'.

## Report something to a teacher

Children can click this to send a message direct to the school or their teachers email address. The teacher can only respond via the parent though so ensure the school have your email address

## FAQS

### Can I upload more than one file?

Yes, but you need to add all files into a zipped folder first. Once you have done this you can upload the folder.

### Is this area secure?

Yes, all responses go directly back to the secure area for staff in School Spider and responses can be seen by the staff in the school

### Where do I login?

Via the school's website. The pupil login is usually on the top bar of the website or near the school name

### Can I change my child's login?

Yes, if you have your parent login you can login via the school website and change their details by clicking the settings cog.

### Can we access via a phone or tablet?

Yes but if you are needing to download and upload files, you will be best using a laptop or computer as not all devices support files and folders.

### Can I send a message to the teacher?

Yes via the "report something to a teacher" button. This will email the school or select your teacher to send a direct message.

### Can other pupils see my child's work?

If you are posting as a comment yes, all users in that class can see you comments. Any files uploaded or anything uploaded via the scrapbook section of School Spider can only be seen by the child's parent or teacher.
